SUMMARY

Third-year Computer Science student with experience in Flutter app development. Skilled in building responsive apps using Dart, Firebase and Provider Framework. Passionate about creating scalable solutions and eager to contribute to impactful projects during an internship.

PROJECTS

Flutter Projects

- **PlaySphere UI** :- In this project I have developed a Game Store UI with Asthetic and Mordern Design. It shows Images and names with 3 List View tabs which are Horizontally Scrollable and 1 Poster Image.
- **TravelApp UI** :- In this project I have developed the UI for Destination Rating with the destination respective images, and sender info who posted the Image.
- **WhatsApp UI** :- In this project I have developed fully functional WhatsApp clone which is totally respnsive which works on all platforms like Android, IOS, Windows and Web with their respective layouts.
- **Chat App** :- In this project I have developed fully functional chatapp using Flutter, Firebase and Provider Framework for State Management. It has features like Authentication with Email and Password, Google Sign-In, with sending Text and Images to chat with users.
