## SUMMARY

---

Enthusiastic Full Stack Developer with a strong foundation in software engineering and a passion for building scalable, user-centric web applications. Committed to writing clean, efficient code and continuously learning to solve real-world problems effectively.

## EDUCATION

---

### BACHELOR OF ENGINEERING IN COMPUTER ENGINEERING: 9.14 SGPA

M. M. College of Engineering, Pune

Expected graduation June 2026

### DIPLOMA IN COMPUTER ENGINEERING: 84.29%

MIT Polytechnic, Pune

June 2023

### SSC: 89.80%

May 2020

## EXPERIENCE

---

### SANYU INFOTECH PVT LTD.

Java Developer Intern

Pune, Maharashtra

Dec 2024 – Feb 2025

- Developed and deployed backend modules using Core and Advanced Java with database integration.
- Strengthened frontend development skills and gained hands-on exposure to AWS cloud services and DevOps tools.
- Contributed to full stack projects, collaborating with team members to deliver efficient, scalable solutions.
- Enhanced understanding of software development workflows and cloud deployment strategies.

### WE FOUND LOVE

Web Developer Intern

Pune, Maharashtra

May 2022 – July 2022

- Designed and built responsive websites using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser compatibility and optimised performance.
- Collaborated with cross-functional teams to gather requirements and translate them into user-friendly designs.
- Implemented interactive features such as forms and animations to boost user engagement and experience.

## PROJECTS

---

### The Bulletin – News Streaming Web Application

- Built a full-stack real-time news platform using Angular, Spring Boot, and MySQL. Integrated third-party news APIs, implemented REST & WebSocket communication, and optimized performance using Hibernate and caching.

### WeSafe – Advanced Women's Safety Application

- Android app with GPS tracking and SOS alert features to enhance women's safety, developed using Java and Android Studio with shake detection for emergency siren and SMS alerts.

## SKILLS

---

**PROGRAMMING LANGUAGES:** Java, C++, C

**FRONTEND:** HTML, CSS, JavaScript, Angular.js, Bootstrap

**BACKEND:** Spring Boot, Hibernate, RESTful APIs

**DATABASE:** MySQL, MongoDB

**TOOLS & TECHNOLOGIES:** Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code, MS Office

**OTHERS:** Basics of Docker, AWS, CI/CD

**CORE CS FUNDAMENTALS:** DSA, DBMS, Computer Network, Operating Systems, AI, OOPs Concepts

## CERTIFICATES

---

Intel® Unnati Industrial Training (Intel, Feb – Apr 2025)

AWS Academy Graduate – Cloud Foundations (AWS Academy, Mar 2025)

Introduction to MongoDB (MongoDB University, Jun 2025)

Front End Web Developer Certification (Infosys | Springboard, Feb 2025)
