Education

Savitribai Phule Pune University(8.95 CGPA)

Nov 2022 – June 2026

Bachelor of Engineering in Artificial Intelligence and Data Science

Pune, Maharashtra

Experience

Hive Tech

Jan 2025 – April 2025

AI/ML Intern

Pune, Maharashtra

- Built a chatbot using Mistral AI API, deployed via Streamlit.
- Developed an NLP-based Content Similarity Analyzer using TF-IDF and Word2Vec embeddings.
- Created an interactive Data Preprocessing & Feature Engineering Dashboard using Streamlit, automating data cleaning workflows.
- Designed a 2D to 3D Image Visualizer using Point Cloud and a Gesture Controlled Virtual Mouse using OpenCV and Python.
- Developed an NLP-based Content Similarity Analyzer using TF-IDF and Word2Vec embeddings.

Projects

Comprehensive Healthcare+ Platform | *Python, MySQL, Django, Bootstrap, JavaScript, AI/ML*

March 2024

- Developed a robust full-stack healthcare application enabling seamless doctor consultations, emergency support services, and comprehensive health record management.
- Integrated an Ai-based symptom checker for early detection and disease prediction and Features like appointment booking ,mental health support

Virtual Mouse using Open CV | *Python, Open CV*

January 2025

- Developed a computer vision-based virtual mouse system using Python and OpenCV that detects hand gestures via a webcam to control mouse cursor movement and clicks.
- Implemented real-time hand tracking using MediaPipe framework and gesture recognition for actions like cursor movement, left-click, and right-click.

Image Classification using TensorFlow CNN | *Python, Open CV, TensorFlow, Keras*

April 2025

- Built a Convolutional Neural Network (CNN) using TensorFlow and Keras to classify custom images into predefined categories.
- Preprocessed dataset (resizing, normalization, augmentation) and trained model with improved accuracy through hyperparameter tuning and dropout regularization.

Achievements / Certification

- Introduction to ML,Programming in Modern CPP - NPTEL
- Python Bootcamp Certification - Udemy
- SIH Participation Certificate 2024
- Machine Learning and Data Science Certificate - Udemy
- Patent – Driver Drowsiness Detection System

Technical Skills

Languages: Python, C++

AI & Machine Learning: CNN, ANN, NLP, GenAI, LLMs, RAG, Computer Vision

Libraries: NumPy, Pandas, Keras, Scikit-Learn, TensorFlow, PyTorch, Seaborn, OpenCV, YOLO

Web Development: HTML, CSS, JavaScript,React.js, Django, Streamlit, FastAPI

Others: SQL, MongoDB, Power BI, Tableau,Canva,Figma

Leadership / Extracurricular

- Creative Head at AESA MMCOE
- Design and Layout Section Editor -College Magazine 2k23-24
