Summary

Full Stack Java Developer skilled in **Java, Spring Boot, Hibernate, and React**, with a focus on building scalable, high-performance products. Passionate about clean architecture, ownership, and delivering impactful user experiences in fast-paced product environments.

Education

- 2022 – 2026 (pursuing) Bachelor's Degree at MMCOE, Pune (GPA: 7.82/10)
- March - 2022 Class 12th, Dayanand Science College, Latur (72.67/100)
- March - 2020 Class 10th, Mahatma Phule Vidhyalaya, Ahmedpur (94.80/100)

Skills

Core Technical Skills: Java, Spring Boot, Hibernate, RESTful APIs, MySQL, JavaScript, HTML, CSS, git and github, Maven, Servlet, JSP

Complementary Skills: DSA, OOPs, Operating System, Problem Solving, AWS(EC2, S3) , Design Pattern (basics)

Work Experience

Java Developer — Sanyu Infotech Pvt. Ltd. — Pune, India **dec 2024 – feb 2025**

- Designed and developed **RESTful APIs** using Spring Boot to streamline internal data workflows, reducing manual processing time by **30%**.
- Integrated **MySQL** databases with optimized queries and indexing, improving data retrieval efficiency by **25%**.
- Implemented modular, reusable backend components that enhanced maintainability and reduced code redundancy.
- Collaborated with front-end developers to ensure smooth **API integration** and consistent data handling across the stack.

Projects

Smart Car Rental System:

Developed a full-stack web application to manage car rentals, bookings, and returns using Spring Boot, MySQL, and REST APIs. Included user authentication, availability tracking, and admin panel for car management.

Online Student Management System:

Created a web portal to manage student enrollment, course assignments, and performance reports using Spring Boot and JDBC. Implemented secure login and role-specific dashboards for admin, teachers, and students.
