Education

Savitribai Phule Pune University(9.02 CGPA)

Nov 2022 – June 2026

Bachelor of Engineering in Computer Engineering

Pune, Maharashtra

Experience

Hive Tech

Jan 2025 – April 2025

Artificial Intelligence Intern

Pune, Maharashtra

- Built a chatbot using Mistral AI API, deployed via Streamlit.
- Developed an NLP-based Content Similarity Analyzer using TF-IDF and Word2Vec embeddings.
- Created an interactive Data Preprocessing & Feature Engineering Dashboard using Streamlit, automating data cleaning workflows.
- Designed a 2D to 3D Image Visualizer using Point Cloud and a Gesture Controlled Virtual Mouse using OpenCV and Python.

Projects

Crowdsourced Civic Issue Reporting & Resolution System | *Python, TensorFlow, React.js, node.js* **September 2025**

- Developed a mobile app for civic issue reporting, enabling citizens to capture, tag, and submit civic issues (e.g., potholes, garbage, streetlights) with automatic GPS location and timestamp.
- Implemented AI/ML-based media analysis to classify issue types and estimate severity levels using image recognition models and built a real-time administrative dashboard for government authorities

Sign Language Detection | *Python, TensorFlow, Pandas, NumPy, Matplotlib*

June 2025

- Developed a machine learning-based system to detect and interpret sign language gestures, enabling real-time communication between sign language users and non-sign language users.
- Utilized Convolutional Neural Networks (CNNs) for image classification and gesture recognition.

Virtual Mouse using Open CV | *Python, Open CV*

January 2025

- Developed a computer vision-based virtual mouse system using Python and OpenCV that detects hand gestures via a webcam to control mouse cursor movement and clicks.
- Implemented real-time hand tracking using MediaPipe framework and gesture recognition for actions like cursor movement, left-click, and right-click.

Achievements / Certification

- Introduction to Machine Learning Certificate - NPTEL
- SIH Participation Certificate 2024,2025
- Machine Learning and Data Science Certificate
- MongoDB Certification

Technical Skills

Languages: Python, C++

AI & Machine Learning: CNN, ANN, NLP, GenAI, LLMs, RAG

Libraries: NumPy, Pandas, Keras, Scikit-Learn, TensorFlow, PyTorch, Seaborn, OpenCV, YOLO

Web Development: HTML, CSS, JavaScript, Django, Streamlit, FastAPI

Others: SQL, MongoDB, Power BI

Achievements / Leadership

- Ranked 6th in internal Smart India Hackathon (SIH) among 120 teams.
- Smart India Hackathon (SIH) Volunteer 2023–2024.
