Education

- Savitribai Phule University, Pune** 2023 – 2026
Bachelor of Engineering in Information Technology 9.60

Skills

Languages: Java, C++, JavaScript, SQL

Web: React.js, Node.js, Express.js, Bootstrap, Tailwind CSS, HTML, CSS

Databases: MySQL, MongoDB

Cloud/Tools: Git, GitHub, Postman, AWS (EC2, RDS), PHPMyAdmin, VS Code

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Experience

Nexrage Services Pvt. Ltd., Pune Aug 2025 – Present
MERN Stack Developer

- Built an automated SaaS access control system integrating Razorpay and MSG91 APIs for instant payment validation and real-time user notifications.
- Engineered secure wallet-based subscription management with JWT authentication, reducing manual intervention and enhancing platform reliability and onboarding efficiency.

Athena Automation, Pune Dec 2024 – Feb 2025
Full Stack Web Developer Intern

- Built responsive MERN applications with secure JWT-based authentication and MySQL integration.
- Engineered automation workflows for CNC machines, minimizing manual intervention and improving production efficiency, resulting in 10+ additional units completed weekly.

Projects

MediSlot [React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Cloudinary] [Live](#)

- Developed a full-stack doctor appointment booking platform with role-based access for Admin, Doctor, and Patient.
- Implemented secure JWT authentication, Razorpay payment integration, and Cloudinary for media management.
- Built an intuitive React + Tailwind UI; deployed frontend on Vercel and backend on Render for scalability.

UnikLeads [React.js, Node.js, MySQL, JWT, Razorpay, MSG91, AWS] [Live](#)

- Developed a SaaS-based automated access control system supporting prepaid and subscription models with instant activation and billing automation.
- Implemented Razorpay with webhooks for real-time payment confirmation and MSG91 for OTP authentication and instant alerts.
- Built secure RBAC middleware with JWT, automated invoicing and reporting modules, and deployed scalable backend APIs on AWS EC2 with S3 for storage.

Skillora [React.js, Node.js, Express.js, MongoDB, JWT, Gemini LLM API, YouTube Data API] [Code](#)

- Developed an AI-powered e-learning platform providing personalized learning through automated test analytics, weak topic detection, and adaptive study plans.
- Integrated Gemini LLM API for content intelligence and YouTube Data API for context-aware educational video recommendations.
- Built instructor panel for content management, custom test creation, and real-time leaderboards; secured platform with JWT authentication.
- Achieved **1st place** in a 24-hour hackathon for innovation and rapid prototype execution.

Achievements

- Winner** – DevClash Hackathon, Team Innovators United Apr 2025

Certifications

- Cyber Security Bootcamp** – COEP Technological University Feb 2025
- Introduction to MongoDB** – MongoDB University Jun 2025
- Industrial Training** – Latur Aug 2022
