BRIEF SUMMARY

Motivated and detail-oriented Computer Engineering student with hands-on experience in Frontend Development, Database Management, and Artificial Intelligence applications. Skilled in modern web technologies (React.js, Node.js, JavaScript, Python, SQL) and experienced in building full-stack projects, AI-based applications, and chatbots. Completed multiple certifications from Infosys (HTML5, CSS3, JavaScript) and IIT Bombay (C, Python), demonstrating strong academic and technical foundations. Seeking opportunities to apply problem-solving, software engineering, and development skills in real-world projects while contributing to organizational growth and gaining industry exposure.

01 Jan, 2025 - 31 Jan, 2025

Frontend Developer Intern

Key Skills:

React.js Responsive Web Design git/github API Integration HTML5 CSS JavaScript Web Development

Front-End Web Development Web Design

Developed and maintained responsive, user-friendly UI components for an onboarding project using React.js, HTML, CSS, and JavaScript. Collaborated with UI/UX designers and backend developers for seamless integration. Optimized component rendering to improve performance and load times. Ensured cross-browser compatibility and mobile responsiveness

PROJECTS

College Helpline Chatbot

Key Skills: Python , Flask , SQLite , Natural Language Processing (NLP)

Built an AI-powered chatbot to assist students with queries related to admissions, courses, and campus facilities. Implemented NLP for intent recognition and used Flask for backend integration. The chatbot reduced student query response time and worked as a 24/7 assistant.

Builder's Review System

Key Skills: React.js Node.js MySQL HTML CSS JavaScript

Designed and developed a review platform for builder projects where users can rate and review based on construction quality, timelines, and overall standards. Implemented secure login, review management, and responsive UI with React.js. Integrated MySQL for structured data storage and Node.js for backend processing. Improved transparency and trust in the real estate sector through user-generated insights.

Furniture E-Commerce Website

Key Skills: React.js JavaScript HTML CSS

Designed and developed a furniture e-commerce platform for buying and selling products such as chairs, sofas, and tables. Built product listing, shopping cart, and checkout functionality with a clean UI. Ensured responsiveness and cross-device compatibility for an enhanced shopping experience.

AlphaKnight – AI-Based Chess Engine & Interface

Key Skills: Python , Pygame , Minimax Algorithm , Alpha-Beta Pruning , Adversarial Search , Object-Oriented Programming (OOP)

Architected a fully interactive chess platform using Pygame with a custom-built evaluation engine powered by Minimax and Alpha-Beta Pruning. Designed efficient game-state trees, move generation, and pruning strategies to simulate intelligent opponent behavior. Demonstrated expertise in adversarial search algorithms, board representation techniques, and object-oriented game architecture.
