📍 Pune ✉ prajwalpardeshi26@gmail.com ☎ +91 8459209266 in Prajwal Pardeshi

Summary

I'm a C++ programmer with experience solving 200+ DSA problems on CP platforms. I can understand Python code and have a solid logic base, which helps me fix basic issues. I'm quick to pick up new things and enjoy solving real coding problems.

Education

BE in Artificial Intelligence and Data Science	2022 - 2026
Marathwada Mitra Mandals's college of Engineering, Pune: CGPA: 7.81	
XII (HSC)	2020 - 2022
D.S. High School, Bhusawal: Percentage: 84.33	

Internship

Data Analytics Process Automation - Alteryx Designer Tool	15th Jan - 30th Mar
- Automated data workflows and reports using Alteryx Designer. - Built data pipelines and improved insights with low-code tools.	

Projects

Virtual Gym Trainer	2023
<i>Computer Vision and OpenCV</i> - Designed a real-time virtual gym trainer to monitor body posture and exercise form. - Modeled the human body as a graph of joints and limbs; performed angle-based analysis. - Integrated live video feedback and motion tracking with high responsiveness.	
International Cricketer Analysis Dashboard	2024
<i>Data Analytics and Visualization</i> - Built an interactive dashboard for analyzing international cricketers' performance metrics. - Data processed using SQL and Python; Trends and comparison visualized in Power BI. - Formed a data-driven "world team" using statistical analysis.	

Technical Skills

Languages: C++, Python
Frameworks & Libraries: NumPy, Pandas
Tools & Platforms: Alteryx, Github, VS Code
Databases: SQL
Core Concepts: Data Structures & Algorithms, OOP, Competitive Programming

Coding Profiles

CodeChef - pj_0415
Codeforces - PJ_0415
AtCoder - PJ_0415
Clist - PJ_0415

Achievements

- Secured 5th place in the SIH Internal Hackathon among 70+ teams.
- Solved 200+ DSA questions on CP platforms.

Certifications

Competitive Programming (Level 1) – TLE Eliminators
Introduction to MongoDB – MongoDB University
Internship: Data Analysis Automation – Alteryx
