PROJECTS

NewsKatta Web App Development

Full-Stack News Aggregation Platform (Frontend Focus)

- Developed a responsive news web app with React.js, integrating reusable components and real-time GNews API for dynamic news. Implemented category filters, search, multilingual, and state-wise news features while collaborating on API integration and backend testing to enhance frontend and UI/UX skills.

Timezone

MERN-Based Luxury Watch E-Commerce Platform

- Built a full-stack luxury watch e-commerce platform using the MERN stack, featuring user authentication, product browsing, wishlist, cart, and Razorpay payment integration with a responsive, animated UI.
