Summary

Full Stack Java Developer with strong expertise in Core Java, JDBC, Hibernate (ORM), Servlets, Spring, and Spring Boot. Skilled in designing RESTful APIs, implementing MVC architecture, and integrating backend with MySQL. Proficient in frontend technologies including HTML, CSS, JavaScript, and React, delivering responsive and user-friendly interfaces. Experienced in end-to-end development, from coding to deployment, with a solid foundation in OOP, problem-solving, and collaborative tools like Git, GitHub, and Postman.

Skills

Programming: Java (Core Java, OOP, JDBC), C, C++
Backend Frameworks: Spring, Spring Boot, Hibernate (ORM), Servlets
Frontend Technologies: HTML, CSS, JavaScript, React, JSP
Databases: MySQL
Development Practices: REST APIs, MVC Architecture, CRUD Operations
Tools & Collaboration: Git, GitHub, Postman API, VS Code

Internship

Library Management System — Sanyu Infotech Pvt. Ltd.—

Dec 2024 – Feb 2025

Tools Used: Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript

- Built a full-stack system managing **2,000+ book records** with CRUD operations, improving data retrieval speed by **35%** compared to manual processes.
- Designed secure login and role management for 3 user groups (Admin, Librarian, Student), strengthening system access control.
- Automated report generation (borrow/return logs), reducing staff workload by **40% per week**.
- Deployed a responsive frontend with HTML/CSS/JavaScript, improving user adoption by **60% among students**.

Projects

Academic Performance Tracker | Java, JSP, MySQL, HTML, CSS

- Created a web application to manage **1,000+ student records**, covering attendance, grades, and academic profiles.
- Implemented **role-based authentication** for Admin, Faculty, and Students, ensuring secure and personalized access.
- Integrated **analytics dashboard** with charts to visualize performance trends and attendance insights.
- Optimized report generation and notifications, **reducing manual academic record-keeping by 70%**.
- Designed a **responsive and accessible UI**, enhancing usability across devices for students and faculty.

Home Loan Management System | Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed a **role-based web application** for Customers, Loan Officers, Credit Managers, and Account Heads to streamline loan processing.
- Implemented workflow automation: Loan Officer checks credit score, Credit Manager verifies documents, and Account Head disburses loan amount.
- Integrated **encryption for sensitive customer data** and secure role-based login to ensure compliance with data privacy standards.
- Developed a responsive UI and streamlined sanction letter generation, reducing loan approval turnaround time by **40%**.

Awards & Certifications

- **Oracle Cloud Infrastructure 2025 Generative AI Professional – OCI (2025):** Completed practical projects and hands-on labs on generative AI, cloud services, and deployment best practices.
- **C Programming — Spoken Tutorial, IIT Bombay (Oct 2023):** Completed proctored online exam with official invigilation; earned 2 credits with a score of 72.50 under the IIT Bombay Spoken Tutorial Project framework.

Education

B.Tech in Computer Engineering

Marathwada Mitra Mandal College Of Engineering, Pune

CGPA: 8.57 / 10
