SUMMARY

Aspiring Full Stack Developer with hands-on experience in building secure, scalable web applications using Node.js, Express.js, MongoDB, and Java. Currently pursuing a B.E. in Information Technology (CGPA: 8.64). Developed multiple end-to-end projects and recognized as a top 15 finalist in Smart India Hackathon 2024. Quick learner, team player, and passionate about solving real-world problems through technology.

EDUCATION

Marathwada Mitra Mandal College of Engineering, Pune	2022 – 2026
B.E. in Information Technology	CGPA: 8.64
Higher Secondary Certificate (HSC)	75.33%
Secondary School Certificate (SSC)	93.80%

SKILLS

Languages: C, Python, Java	Frontend: HTML, CSS, JavaScript
Backend: Node.js, Express.js, Flask	Databases: MySQL, MongoDB
Frameworks: Java Swing, Java Spring Boot	Tools: Git, Postman, Razorpay, Twilio

WORK EXPERIENCE

Oeesha Solutions Pvt. Ltd., Pune

Jan 2025 – Mar 2025

Full Stack Developer Intern

- Developed a full-stack newspaper distribution system using Node.js, Express.js, MongoDB, and vanilla HTML/CSS/JavaScript.
- Designed and implemented RESTful APIs with secure JWT-based authentication and role-based access control.
- Integrated Razorpay for handling online subscription and payment transactions.
- Created dynamic, responsive dashboards for different user roles: Customer, Employee, Agency, and Admin.
- Applied best practices for security, including input sanitization and password hashing using bcrypt.

PROJECT WORK

Ratib – A Newspaper Delivery & Management System

- Built a full-stack platform with modules for Customers, Employees, Agencies, and Admins using Node.js, Express.js, MongoDB.
- Integrated Twilio API for WhatsApp updates and Razorpay for secure online payments.
- Implemented features like authentication, real-time notifications, complaints, and analytics dashboards.
- Designed MongoDB schemas to manage user data, documents, salaries, and task assignments securely.

Gym Management System

Technologies: Java Swing, AWT, MySQL, JDBC

- Designed an intuitive desktop interface using Java Swing and AWT for seamless user interaction.
- Built backend logic and integrated MySQL database using JDBC for efficient data handling.
- Developed functional modules for member/trainer management, attendance tracking, and secure payments.

S2P-Xcel – Smart PDF to Excel Converter

Technologies: HTML, CSS, JavaScript, Python, Flask

- Built a responsive web application to extract tabular data from PDFs and convert it into structured Excel sheets.
- Developed the backend using Flask to handle file uploads, PDF parsing, and Excel generation.
- Collaborated on automation workflows to reduce manual data entry in import/export billing processes.
- Optimized backend performance while maintaining a clean and intuitive UI/UX design.

AI-Driven Research Engine for Commercial Court

Technologies: HTML, CSS, Python Flask, MongoDB

- Gathered, cleaned, and structured legal case datasets for prediction using NLP techniques.
- Designed and developed the frontend interface for fast and accurate legal research.
- Built the backend with Flask and MongoDB to connect and serve datasets to the frontend in real time.

ACHIEVEMENTS & CERTIFICATES

- Secured Top 15 rank in college-level selections for Smart India Hackathon – 2023 & 2024.
- Completed Data Science Skill Development Program – Oct 2024.
- Earned certification in Core and Advanced Java Programming – June 2024.
